

VAARAHI TECHNOLOGIES is an ISO certified leading provider of advanced Building Management Systems (BMS) solutions, offering cutting-edge technology and expert services to optimize the performance, comfort, and efficiency of buildings. Established in 2023, we specialize in the design, integration, and maintenance of BMS systems that enhance energy management, security, HVAC (Heating, Ventilation, and Air Conditioning), lighting control, fire alarm systems, and more. Our solutions help building owners, property managers, and facility operators maximize operational efficiency, reduce energy consumption, improve occupant comfort, and ensure compliance with regulatory standards.

Our Mission & Vision

Mission: To provide innovative and reliable Building Management Systems that enable sustainable, smart, and cost-efficient operations in buildings, while ensuring the safety, comfort, and well-being of its occupants.

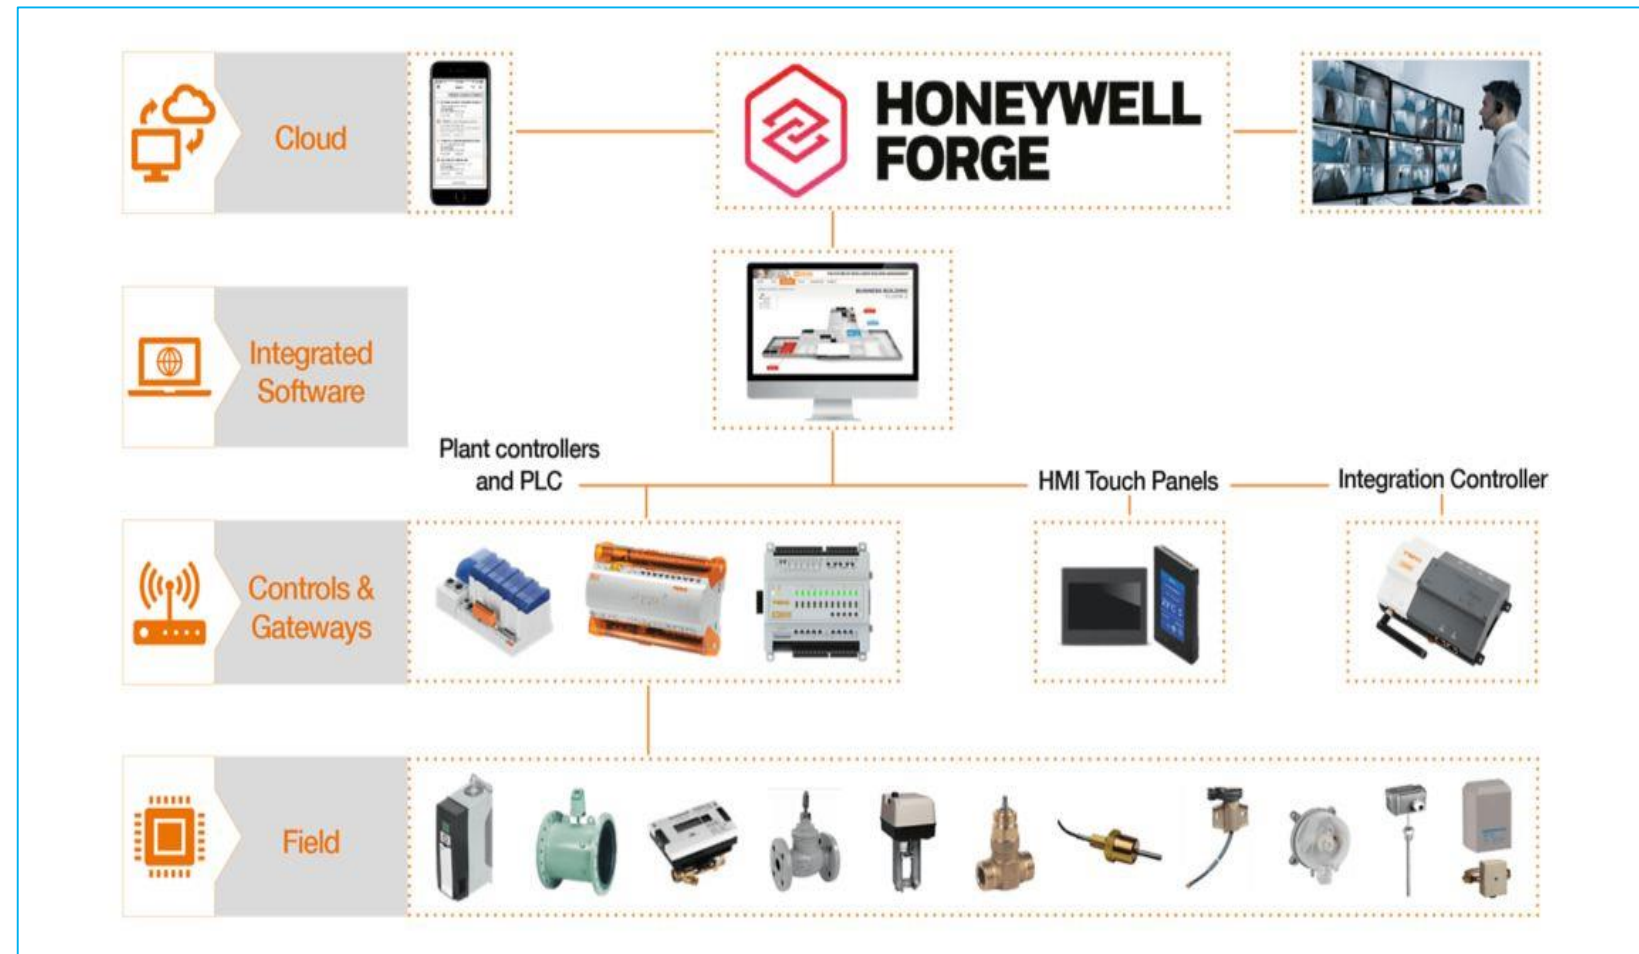

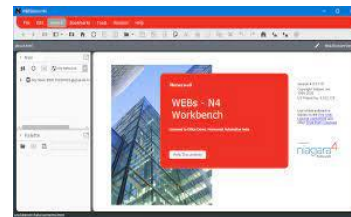

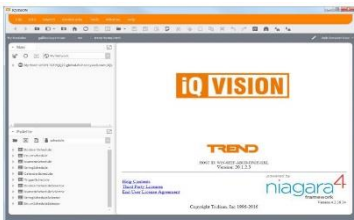

A vision for a Building Management System (BMS) focuses on creating a fully integrated, efficient, and sustainable environment where technology seamlessly controls and monitors various building systems.

Collaborations :

❖ **VAARAHI TECHNOLOGIES** is an authorized Channel Partner of **Honeywell Automation India Pvt. Ltd.**, specializing in comprehensive Building Automation Management Systems

We offer a wide range of controllers and software solutions, tailored to meet the specific needs and requirements of our customers

❖ **VAARAHI AIR CONTROLLERS** a sister company of **VAARAHI TECHNOLOGIES**, is an authorized Channel Partner of **BELIMO** Controllers. We specialize in delivering cutting-edge solutions for air controlling systems, including **Variable Air Volume (VAV)** systems

❖ **Products we offered with VAARAHI AIR CONTROLLERS**

- Rectangular VAVs
- Flat oval VAVs
- Round VAVs
- Suit to duct size VAVs

Key Services

- 1 Building Automation System Design & Integration:** We design and integrate state-of-the-art automation systems tailored to meet the specific needs of each building. This includes controlling HVAC, lighting, security, and other essential systems.
- 2 Energy Management & Optimization:** Our systems monitor energy consumption and identify areas for improvement, helping building owners reduce energy waste and lower operational costs.
- 3 HVAC Control Systems:** We offer HVAC control solutions that ensure optimal temperature regulation, energy efficiency, and comfort, reducing overall energy consumption.
- 4 Lighting Control Solutions:** We design automated lighting systems that adjust based on occupancy and time of day, improving energy efficiency and enhancing the building's lighting environment.
- 5 Security & Surveillance Systems:** Our integrated security solutions provide building owners with real-time monitoring, access control, alarm management, and video surveillance.
- 6 Maintenance & Support :** Ongoing maintenance, troubleshooting, and updates to ensure BMS systems are operating at peak efficiency and remain up to date with industry standards.

Why Choose VAARAHI TECHNOLOGIES?

Experienced Team : Our engineers and technicians bring years of experience in building management systems, offering tailored solutions and unparalleled expertise.

Innovative Technology : We stay at the forefront of BMS technology by utilizing the latest advancements to deliver efficient, scalable, and customizable solutions.

Client-Centered Approach : We focus on building long-term relationships with our clients, delivering projects on time and on budget, while providing exceptional customer service.

Sustainability & Efficiency : We are committed to delivering solutions that promote energy efficiency, sustainability, and cost savings in every building we work on.

Industries We Serve

Commercial Buildings

Residential Complexes

Industrial Facilities

Healthcare
Buildings

Educational Institutions

Retail and Shopping Centres

Hospitality (Hotels &
Resorts)

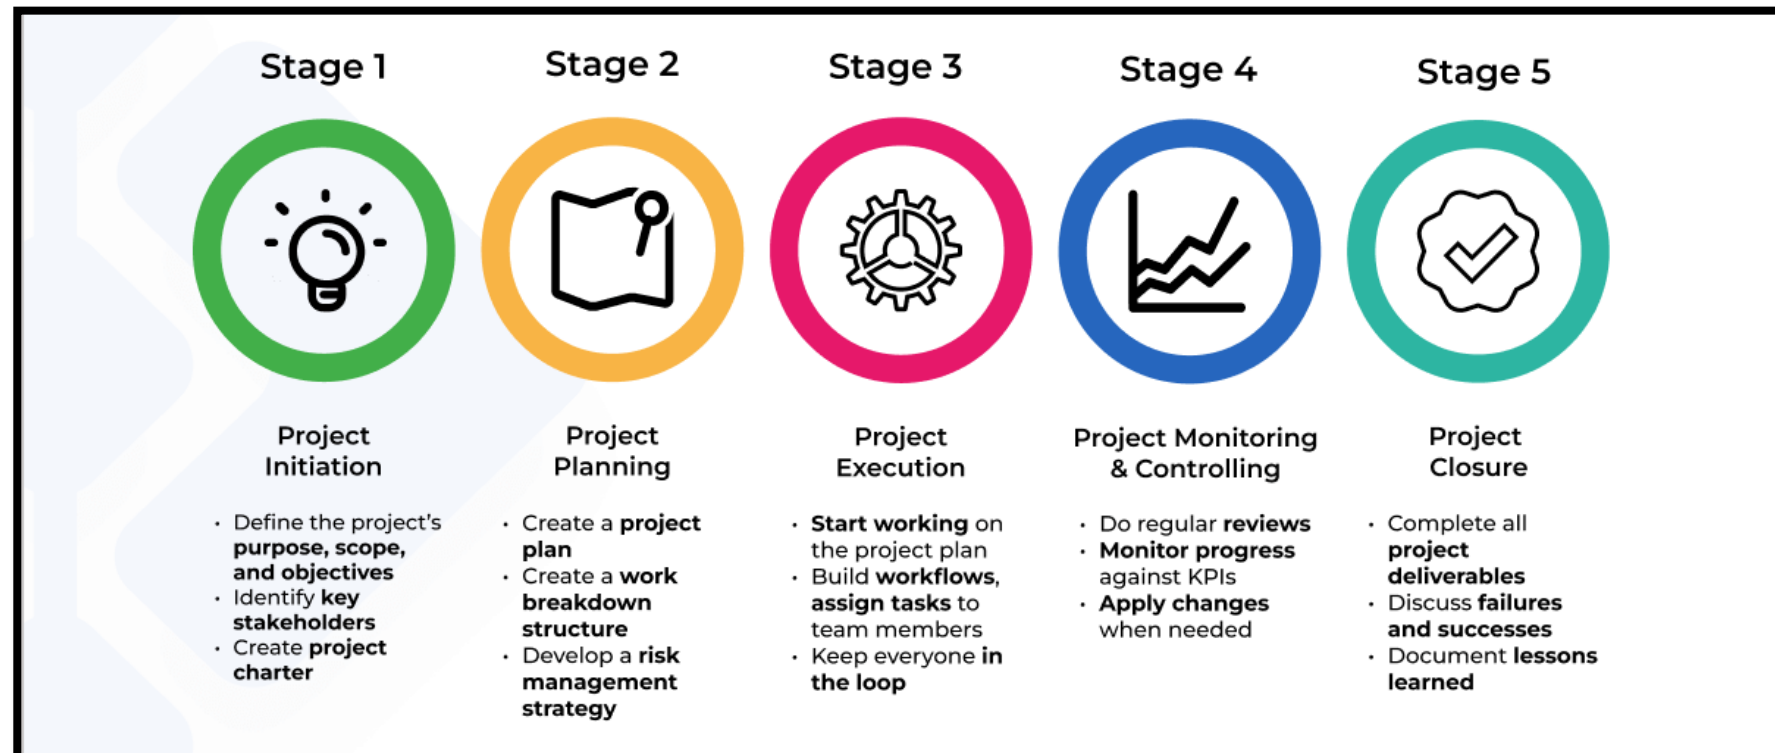

Government
& Municipal
Buildings

Our Approach

At **VAARAHI TECHNOLOGIES**, we take a consultative approach to every project, From initial planning and design to installation, integration, and ongoing maintenance, we ensure that the Building Management System we deliver meets your specific needs while exceeding your expectations.
